PROFESSIONAL OBJECTIVE

Seeking a professional opportunity where I can apply my skills, contribute to the company's goals, and grow alongside the organization through continuous development.

EDUCATION

- Uniasselvi - Bachelor of Education in Informatics **2021 - 2025**
- Uniasselvi - MBA in Commercial Management and Market Intelligence **Current**

PROFESSIONAL EXPERIENCE

- **Conipa - Production Leader** **2021 - 2025**
 - System & Inventory Management: Utilize SAP S/4HANA Fiori to manage inter-departmental material transfers, maintain inventory control, and perform final product quality validations.
 - Procurement & Vendor Management: Manage electronic market purchases, oversee the opening of tickets for new product and supplier registrations, and lead negotiations for CAPEX and OPEX acquisitions.
 - Performance Analysis: Designed and managed productivity tracking models to monitor daily individual employee performance, documenting dedicated activity logs and production averages.
 - Talent Acquisition: Facilitate the recruitment process by administering admission tests and conducting candidate interviews.
- **Astemo - Planning Analyst** **May/25 - Aug/25**
 - Production Planning: Develop comprehensive production schedules based on direct customer orders, ensuring alignment between demand and manufacturing capacity.
 - Performance Analysis & Reporting: Perform monthly production closings using actual data, with a strong focus on tracking efficiency, yields, and variance analysis (gains and losses).
 - Process Automation: Spearheaded the automation of critical reporting workflows using Power Automate, Power Query, VBA, Macros, and SQL, significantly increasing operational efficiency and reducing manual tasks.
 - Data Consolidation: Engineered automated workflows for Kanban consolidation, streamlining material flow and inventory visibility.
 - Advanced Data Analytics: Developed sophisticated data analysis models using Power Query (M Language) and DAX, ensuring accurate data processing and actionable insights for management.
- **Astemo - Commercial Analyst** **Aug/25 - Jun/26**
 - Stakeholder Management: Manage daily communications and business relationships with key automotive clients, including Honda, Yamaha, Kawasaki, and Harley-Davidson.
 - International Reporting: Report directly to senior management in the United States, providing clear, data-backed insights on commercial performance.
 - Pricing Strategy: Lead price negotiations and strategy development to ensure alignment with company targets and market competitiveness.
 - Data Visualization: Design and maintain advanced Power BI dashboards to visualize sales performance, enabling leadership to make informed, data-driven decisions.
 - Automated Reporting: Engineered automated reporting workflows, extracting real-time data from internal systems via SQL queries to provide accurate, up-to-date reports for both Brazilian and U.S.-based executives.
